

**Heffron Services**  
**2010 Application for Dust Control**  
**Magnesium Chloride**

We, the undersigned, hereby make application for permission to apply Magnesium Chloride for the purpose of dust control in the below described location.

The applicant agrees to the following:

1. **Deadline for sign up is May 1<sup>st</sup>.** To allow the county sufficient time to prepare the roads before the first application, any applications received after this date will include a \$20.00 late fee.
2. To maintain flags to identify the outer limits of the area to be treated with magnesium chloride. **Flags must be in place May 9<sup>th</sup> and kept visible until October 1<sup>st</sup>** to inform the motor grader operator of the location of the treated surface. Failure to do this could result in the area being bladed. Neither the County nor Heffron Services assume any liability if your flags are not in place. If area is not marked, drivers will use judgment for location.
3. The County reserves the right to blade the treated area if it must be done to maintain the public safety. In the event of rain, the county also reserves the right to do light blading on the treated area for public safety. Your road will be thoroughly bladed after October 1<sup>st</sup> in preparation for winter.
4. This agreement is for two (2) treatments only.
5. Magnesium Chloride is a very effective dust control product, however, we do not guarantee its performance due to factors such as weather, surface preparation or heavy traffic patterns.
